To whom it may concern

**Re:- Abbey Electrical Contractors (Wirral Ltd)**

We are writing in relation to the abovementioned company.

We have, over the past 2 years, worked with Abbey Electrical on several projects as project architects and also as a client.

They are professional, competitive and reliable.

All work was carried out within budget, on time and call outs were dealt with immediately.

We would not hesitate to recommend them for both commercial and residential projects.

Yours faithfully

Kevin Horsewood
